DESCRIPTION

Ink antidrying spray to maintain fresh the ink.

PRINCIPLE CHARACTERISTICS

Ink antidrying Spray is a particular formulate packed as spray.

Ink antidrying Spray avoids ink drying during the operational stop of the printing presses.

Ink antidrying Spray does not permit the formation of the surface skin nor of the lumps.

ADVANTAGES/BENEFITS

1. Maintains the press in the perfect efficiency state
2. Reduces cleaning operations on the printing press
3. Maintains the ink usable even after the phase of the press stop
4. Does not leave oily residual on the contact parts
5. Does not damage the gums
6. **Reduced environmental impact**

INSTRUCTIONS FOR USE:

Spray **Ink Antidrying Spray** directly on the ink in the ink duct and on the dirty ink distributions.

ANTIESSICCANTE SPRAY (INK ANTIDRYING SPRAY)
