DESCRIPTION

Specific product for removal of scrapes and calcareous from printing press rubber rollers.

Deoxi Roll eliminates completely the oxide created on ink and on dampening rollers giving to the rubber its original roughness and softness characteristic.

Deoxi Roll removes also the residuals of dry ink.

PRINCIPLE CHARACTERISTICS

Deoxi Roll is an excellent scraper, formulated in a way to restore the original state of the ink rollers surface without damaging them.

Deoxi Roll, thanks to its high ink solvent capacity, can be used even as color change.

Deoxi Roll gives to the rollers a correct ink and dampening film transfer.

ADVANTAGES/BENEFITS

1. Efficient on residuals of calcareous nature
2. Excellent ink solvent power
3. Improves ink transfer
4. Improves water film spreading
5. Reports the rubber to it's original roughness and softness without damaging them
6. **Reduced environmental impact**

INSTRUCTIONS FOR USE

Firstly wash the distributions with standard solvent, afterwards pour **Deoxi Roll** on rollers and leave react for approximately ten minutes, until a thin whitish patina is created.

Eliminate the patina by pouring plenty of tepid water until complete removal. Eventually repeat operation.

DEOXI ROLL

CHEMICAL-PHYSICAL CHARACTERISTICS

Appearance	White creamy
Odor	Mild characteristic
pH (as it is)	< 3,0
Boiling temperature	Not Applicable
Density	1,040 - 1,070 g/cm ³
Water soluble	Partly soluble
Solvent soluble	Partly soluble

Indicated data are characteristic and typical of the product and do not constitute specifics.

PRECAUTIONS FOR USE AND STOCKING

Chemical product, for industrial use only.

Harmful if ingested.

It is recommended to use the personal protective equipment indicated in the MSDS, while manipulating the product, especially protective glasses and gloves as well as adequate clothing.
