DESCRIPTION

Fabric Recover is a viscous fluid formulated for long lasting repair of blankets indentations in offset printing.

PRINCIPLE CHARACTERISTICS

Fabric Recover permits longer blanket usage after indentation. The repair is achieved through the swelling action on the blanket fabrics (inner side) that lifts up the smashed area, preserving thus the rubber surface and avoiding its weakening.

ADVANTAGES/BENEFITS

1. Ready to use liquid
2. Immediate recovery of marks and indents
3. Swelling actions on carcass fabric
4. Does not damage rubber surface
5. May be used on all blanket types with nitrile and EPDM rubber

INSTRUCTIONS FOR USE:

Identify, under the blanket (bottom), the indentation. Apply **Fabric Recover** on the fabric using the brush supplied. Do not remove the product, leave to absorb.

Fabric Recover

CHEMICAL-PHYSICAL CHARACTERISTICS

Appearance	Light brown liquid
Odour	Characteristic
Density	1,020 – 1,060 g/cm ³
Water soluble	Soluble
Solvent soluble	Not soluble

Indicated data are characteristic and typical of the product and do not constitute specifics.

PRECAUTIONS FOR USE AND STOCKING

Chemical product, for industrial use only.

Harmful if ingested and for skin contact. Particularly irritant to eyes.

It is recommended to use the personal protective equipment indicated in the MSDS, while manipulating the product, especially protective glasses and gloves as well as adequate clothing.
